HARMONY DETERGENT

2

Type of Product

Harmony detergent is a concentrated neutral liquid laundry detergent designed for linen operations. Specialized solvents add superior performance in all classifications and linen types.

Applications

Designed for laundry operations/facilities processing a wide range of linen types and soil classifications. Light soil hotel/motel linens to heavy soil food and beverage linens.

For specific usage instructions, please contact you local Applied Chemical Innovations representative. After a complete analysis of you laundry operation, proper and complete information will be provided.
