

SPECS

Vividis **BOOST** **PEROXIDE**

Type of Product

Boost is an oxygen base bleaching and destaining product. This product when used with an alkaline builder has proven effective in removal of many "bleachable stains".

Applications

Boost has proven versatile in operations such as hospitality, healthcare and shirt laundry operations. This product should be used with an alkaline builder for desired results.

For specific usage instructions, please contact you local Applied Chemical Innovations representative. After a complete analysis of you laundry operation, proper and complete information will be provided.

PRODUCTS DESIGNED TO DELIVER

- **CONSISTANT QUALITY**
- **CONFIDENCE**
- **SUPERIOR SERVICE**
